# Bringing people *together*

Hello I'm Helena, the founder of happily.

happily is a family run friendship and dating project in West London.

The idea of happily, was born from my first-hand experience of helping my younger sister who has learning disabilities to find love and friendship.

We are a not-for-profit Community Interest Company and we want to help you make friends and relationships.

To join happily you have to have a learning disability or autism, be over 18 years old and live in our coverage area. Interested? Get in contact!

We want to help you live life happily!

*Helena*
